- Verify data accuracy and identify trends
- Build reports using combination of SAP Business Objects, SSMS (SQL Server Management Studio), Power BI, Salesforce and Azure Databricks
- Create department-specific reports and interpret useful information from data mining queries
- Maintain standard reports and support the effort to automate additional reports as requested by management
- Determine requirements for new reports by consulting with requestors
- Identify available information and determine data to be included

Special Projects and documentation of results

- Participates on special projects by:
 - Preparing documents for data accuracy, dictionary, and version controls
 - Executing and analyzing processes and recommending improvements
 - Writing narrative reports including project scope, activities undertaken, findings and recommendations
 - Documenting new procedures for software implementations

Backup

- Serves as a backup to Risk Management Team on process improvements and reporting

Knowledge, Skills, and Abilities:

- Expert knowledge of Excel, Visio, and Microsoft Office
- Expert knowledge of various programs to efficiently pull information
- Advanced knowledge of SQL programming language
- Working knowledge of data mining tools, including, Azure Databrick, Python and Power BI
- Skill in analyzing complex technical data by using logic and quantitative reasoning
- Skill in utilizing time in an efficient and effective manner
- Skill in having perception of different dimensions of business and financial issues and making sense out of complex issues while being decisive and flexible to change
- Skill in taking complex tasks/ datasets and distilling it to clear results
- Skill in taking complex tasks/data dictionary and validating results for accuracy
- Skill in utilizing a systematic approach to problem solving
- Skills in recognizing the need for action and initiating activities to address the need
- Skill in differentiating significant and insignificant details
- Oral and written communication skills sufficient to discuss a variety of job-related topics, and to effectively communicate complex topics to a variety of audiences

Minimum Qualifications:

- ❖ Two years of experience in financial analysis and reporting or an equivalent combination of education and experience sufficient to perform the essential function of the job
- ❖ Bachelor's degree in finance, accounting, business intelligence or related field
